DLL is an experienced funding source for lighting and energy efficiency projects.

We structure financing options to meet customer needs, preserve working capital, and facilitate the deployment of cost-saving energy projects.

For over 50 years, we have been working with manufacturers, OEMs, and contractors around the world to facilitate the sale of equipment, systems, and services by offering their customers simple and convenient access to financing. Financing options are tailored to meet a customer's unique needs, preserve working capital, and enable project implementation in the absence of a budget.

Nationally, we are recognized as the largest provider of integrated vendor financing programs, partnered with some of the world's largest companies.
